---

## EDUCATION

**Sal Institute of Technology and Engineering Research**  
Bachelor of Engineering ; Current CGPA : 7.8

Ahmedabad, India  
**August 2022 - June 2026**

---

## SKILLS

- **Languages :** Javascript, SQL, Python
- **Frameworks :** React.js, Node.js, Expressjs, Tailwind CSS, Bootstrap
- **Tools :** Postgresql, MongoDB, Github, VScode
- **Soft Skills :** Communication, Time Management, Adaptability, Teamwork

---

## INTERNSHIP

**Artificial Intelligence Intern**  
**IBM SkillsBuild by CSRBOX**

**July 2025**

- Completed a 2-week Internship covering key AI concepts including Large Language Models , Reflex and Complex Agents.
- Gained hands-on experience using IBM tools and some other open source tools to create and simulate intelligent agents.
- Worked on a capstone project and explored supervised, unsupervised, and reinforcement learning techniques.

---

## PROJECTS

**AI-Powered E-commerce Platform**

**June 2025**

- Developed a dynamic e-commerce website using the MERN stack, incorporating features such as user authentication, product management, a cart system, and secure payment integration.
- Implemented an AI-powered custom chatbot for FAQs and dynamic flows (e.g., "What's in my cart?", "What was my last order?"), fetching real-time data from the database. Also integrated email notifications for order placements, with the site hosted on Vercel and source code on GitHub.

**3D Portfolio Website**

**July 2025**

- .Developed a 3D interactive portfolio website using React.js, Three.js, Tailwind CSS, and Vite, incorporating 3D animation models such as a globe, marquee, and a falling astronaut.
- Implemented email functionality using Email.js for user contact, and deployed the website via Vercel, maintained through GitHub, to showcase projects with smooth animations and responsive design.

---

## CERTIFICATIONS

**The Full Stack Web Development Course**

**February 2025**

- Completed a comprehensive Full Stack Web Development course covering HTML, CSS, Javascript, React, Node.js, Express, and MongoDB.

- Built responsive web applications with RESTful APIs, user authentication, and database integration using the MERN stack.

### **Introduction to Artificial Intelligence (IBM)**

**July 2025**

- Completed an Artificial Intelligence course covering key modules including Large Language Models, Reflex and Complex Agents, Supervised, Unsupervised, and Reinforcement Learning.
- Gained hands-on understanding of AI concepts and model training techniques applied to real-world problem-solving scenarios.
